Flair

Parapetto solare

An aerial photograph of a large, modern white building with a complex, multi-gabled roof. The entire roof surface is covered with dark, rectangular solar panels, identified as MegaSlate. The building has white walls and large windows. To the right of the building, there is a bright blue swimming pool. The surrounding area includes green lawns, trees, and a parking lot with several cars. In the background, another building with solar panels is visible. The text "Tetto solare MegaSlate®" is overlaid in white at the bottom of the image.
